PROFILE

Highly motivated and detail-oriented Computer Science graduate passionate about data analysis, programming, and cloud solutions. With a strong foundation in Python, Power BI, and Microsoft Azure, I am always eager to learn and adapt to new technologies. Recently completed the SAP Young Professional Program where I gained valuable experience and knowledge about the SAP S/4HANA cloud offerings, where I earned two certifications, SAP Certified Specialist - Implementation Consultant for SAP S/4HANA Cloud (Private Edition) and SAP Certified Associate - Business Process Integration with SAP S/4HANA.

Bachelor of Science in Computer Science

2020 - 2022

- Algorithm Design and Data Structures.
- Object-Oriented Programming (Python, Java).
- Database Management and SQL.
- Cybersecurity fundamentals.

Calvin College

Matric

2016

TECHNICAL SKILLS

Programming Languages

Python, Java, SQL, JavaScript, HTML, CSS.

Tools

Power BI, Microsoft Azure, GitHub, Azure Logic Apps, Power Automate.

Data Analytics

Data Analysis, Reporting, Data Governance.

Operating Systems

Windows, Linux.

Soft Skills

Teamwork, Problem-Solving, Communication, Leadership.

WORK EXPERIENCE

SAP Young Professionals Program

2024

As a proud graduate of the SAP Young Professionals Program, I have gained comprehensive knowledge and hands-on experience in SAP solutions, equipping me to drive business transformation. This immersive training program provided me with:

Certifications and expertise:

Achieved SAP Certified Specialist - Implementation Consultant - SAP S/4HANA Cloud Private Edition and SAP Certified Associate - Business Process Integration with SAP S/4HANA, enabling me to support businesses in adopting and optimizing SAP enterprise solutions.

End-to-End Business Process Integration:

Educated and trained on SAP integrated solutions to align business processes across finance, logistics, procurement, and sales, ensuring efficiency and innovation.

Practical Implementation Knowledge:

Participated in simulated real-world scenarios that deepened my understanding of SAP S/4HANA Cloud deployment, configuration, and troubleshooting.

The program strengthened my ability to communicate complex technical concepts, collaborate in diverse environments, and deliver innovative solutions tailored to client needs.

UVU Africa - Graduate accelerator Internship 2024 - Present
Cape Town, South Africa

Participating in a graduate internship, working on real-world projects involving data analysis and cloud automation.

- Gained hands-on experience with Microsoft Azure and Power BI, enhancing cloud solutions and data governance.

PROJECTS

City of Cape Town Hackathon - 2nd Place 2024
Python, Power BI

Worked with a team to analyze data and propose a solution for improving city services using Power BI and Python scripts.

Power BI Dashboard: Factors Affecting University Success Rates 2023
Power BI

Created a comprehensive dashboard to visualize and analyze factors impacting student performance and retention at universities.

Python Game Development - Snake Game 2022
Python

Developed a classic Snake game using Python and the Turtle module as part of a group project.

Comprehensive Automation Solutions with Microsoft Azure 2023
Azure Logic Apps, Power Automate

Built an end-to-end automated workflow for processing and reporting data using Azure services and Power Automate.
